Overview

— Since 1989 CASSI has supported people who live with disability, always placing the people who choose our service at the heart of what we do.

Our strategic plan has been developed with people who choose our service, supporters and staff. This plan identifies our direction for the coming three years.

2023-26

Vision and Mission

— Vision

Our vision is to create a world where every individual is empowered to live their lives with independence and inclusion. We believe that every person deserves the opportunity to reach their full potential and make meaningful contributions to society. Through support and advocacy, we strive to remove barriers and create a more equitable society.

— Mission

To support individuals by advocating independence and inclusion. We strive to authentically connect with service users, staff and community.

Values

— We strive to create an environment where everyone feels valued and respected, and where open communication and collaboration are encouraged. We believe in conducting ourselves with integrity, honesty and transparency and we understand that trust is earned through consistent and reliable behaviour.

Strategic Plan Priority 1

Strengthen Financial
Sustainability
